dated 25 Feb 47, sub-
ject: "Exploitation
of Enemy Document Re-
positories" w/inclosures.

SUBJECT: Exploitation of Enemy Document Repositories.

1. The attached papers relate to a proposal to exploit captured enemy documents both here and abroad in order to collate materials on political-social-psychological warfare.
2. It is the belief of the ad hoc committee that two teams, one to operate in Europe, one to operate in U.S., can accomplish the work required in two years.
3. Advisor for Management, ICAPS, recommends that a project be prepared showing estimated cost of operation for presentation to the Project Review Committee before submission to IAB for approval.
4. Request that you prepare a project, in conjunction with Colonel Perry of ORE, by 15 March.
